

Physiotherapist (Triage)

The Physiotherapist screens and navigates referrals, assesses, diagnoses and develops treatment plans for patients referred with a variety of musculoskeletal conditions. This position works in collaboration with our in-house sports medicine physician

The ideal candidate is someone who has:

- A minimum of **five years' of clinical musculoskeletal experience**
- Awareness of **community** and **specialist rehabilitation services**
- Outstanding **interpersonal** and **customer service** skills
- Excellent **time management, problem solving** and organization skills
- **Excellent communication** skills, both written and verbal
- Ability to work both **independently** and as part of a **diverse team**
- Adaptable to a **dynamic** and **innovative** environment

What to expect day to day:

Patient Assessment:

- Screen and navigate incoming referrals based on information provided and program inclusion/exclusion criteria
- Collect health history, inspect and palpate joints, muscles and surrounding structures for abnormalities and signs

Treatment Planning:

- Interpret health history, physical examinations and imaging to formulate a musculoskeletal diagnosis identifying cause and severity
- Provide education to patients on disease pathology, prognosis, surgical and non-surgical treatments and timelines
- Collaborate with patients to develop a treatment plan based on available and recommended treatment options

Coordination of Care:

- Document all assessment, diagnosis and treatment information in a full and comprehensive electronic medical record report
- Communicate all relevant health information with referring, consulting and treating physicians and allied health professionals
- Consult with in-house sports medicine physician for complex or likely surgical cases and refer for diagnostic imaging requisitions, medication prescriptions or administration, medication management as well as sign off on work restrictions/ insurance forms
- Refer patients in-house to various surgeons, specialists, clinicians or other external providers, as required

Requirements of the role:

- BSc or MSc in Physical Therapy
- Registered with Physiotherapy Alberta (general register, non-provisional)
- Authorization to order diagnostic imaging is a requirement
- Experience completing various medical/insurance forms required
- Excellent musculoskeletal assessment and diagnosis skills
- Knowledge of medical and allied health professions and related services
- Proficiency with an Electronic Medical Record (EMR), ideally med access, and Netcare
- Experience with dictating chart notes for transcription an asset
- Advanced knowledge/ expertise of Microsoft Office applications (Word, Outlook, Excel, etc.)
- First Aid and Cardiopulmonary Resuscitation (CPR) required

Openings: One (1) Part-Time, 31 hours weekly

Location:

Northgate Centre (9499-137 Ave)
