

Mental Health Therapist (MHT)

Salary Range	Will be negotiated based on experience
FTE	2.0 FTE
Start Date	May 11, 2020
Location	Rundle Health Centre (3427 118 Ave) Edmonton, AB T5W 0Z3
Program Overview	<p>Our Mental Health Therapist functions as a secondary referral in a stepped care approach to facilitate the identification and delivery of appropriate treatment for mental health needs that would not otherwise be available. The PCN'S service model is principled on short-term therapy practices.</p> <p>MHT's conduct mental health initial assessments and assist patients in the creation of a collaboratively formulated treatment plan. Additionally, MHT's will assess the needs of referred patients to determine relevant treatment plans which may include therapy with a Mental Health Therapist, and/or referral to group therapy, and/or a referral to an appropriate community agency or regional program</p>
Position	Functioning as part of a multi-disciplinary team, MHT's work with PCN physicians, BHC's, and other health professionals, and local and regional programs to ensure a high quality of evidence-based health care is delivered to the population we serve.
Report to	Team Lead
Education	Masters Degree in Psychology or Social Work. Must hold active professional registration (in good standing) with a relevant college.
Experience	<p>A minimum of three (3) years' experience providing individual short-term and group counselling in a community agency.</p> <p>Experience working with local community and regional programs is required</p> <p>Experience with adult population in terms of assessment, concurrent disorders and provision of trauma-informed care.</p> <p>Experience with social justice and advocacy.</p>
Skills	<p>Strong communication skills, adaptability, and integrity are essential MHT qualities.</p> <p>Must be able to organize time, multi-task and set priorities to meet various deadlines and maintain a flexible schedule.</p> <p>Values collaboration and contributes to the development and implementation of community-based solutions to meet the mental health needs of the population.</p>
